

Fairbanks General Aviation Association
Executive Board Meeting via Zoom
Thursday, September 30, 2021 4 PM to 5 PM

Members present: Merle Jantz, Aldean Kilbourn, Chris Miller, Wally Smith, Tom George

Discussion brought up to consider spending \$150/year to join the Airport Operators Council that meets monthly. It's been around since the airport started. It generally covers routine communications with stakeholders at the airport. Currently it's mostly made up of west airport stakeholders, but there are a few from the east ramp like Northland Aviation as well as Tom George. Moved by Aldean, seconded by Chris to spend \$150 to join the Airport Operators Council. Passed unanimously.

Discussion about the fences at ends of float pond, gate across Bravo that supports were up but not the gate. The float pond south fence was reduced in height. There is still discussion going on about lighting the top of the fence.

The preliminary agenda was reviewed for the Fairbanks General Aviation Association meeting via zoom that's coming up (Rod Combellick will host with his Zoom and will send out invites to all current general aviation members that we have emails for). Date of meeting is Tuesday, October 12, 7 PM. Merle has arranged for Timothy Long (new guy) as the tentative ATC presenter, but it could end up being someone else too. Merle also arranged for Nick Adkins, Alaska Center for Unmanned Aircraft Systems at UAF to give the feature presentation. Mention of TFR and shortened times through 2022, AQUISI, ATC NOTEM on Vasi on 20 L.

adjourned

Preliminary AGENDA

7:00 pm	Welcome	Merle Jantz, GAA President
	Meeting instructions GAA membership & dues GAA activities
