Airport Police and Fire

Spring is here and with it, we expect to see an uptick in activity on the east ramp. In the past we have seen associated minor increases in criminal activity to include theft, damage to aircraft and trespassing.

Officers will continue the contact and outreach that was enacted last year so expect to see and interact with them in a professional and friendly manner. Your goals are our goals.

Please secure your aircraft and fuel storage to deter any criminal activity.

ANC/FAI Dispatch Support

Fai continues to provide dispatch support to both ANC and local AST dispatch centers. We have added 2 new full time dispatchers and are currently one employee shy of fully staffed. Recruitment for the remaining position should occur in late June. Current equitable pay issues continue to be a challenge that potentially impact current staffing levels.

APF Staffing Outlook

Current Police and Fire Officer staffing is full at 26 sworn officers with 1 in a training cycle

Dispatch staffing is 5 of 8 with two new hires in training and 1 recruitment scheduled to start in late June/early July

Department Administrative Assistant has recently been selected and is pending state hiring approval

Chief Stevener has officially announced retirement effective June 30th. Recruitment for successor is currently in process

1-2 additional retirements are anticipated in the next 12-18 months

No decrease in quality of service is anticipated due to these departures.
